## Completed Packages

- Bulk Earthworks
- Demolition
- Early Works Hydraulics
- Energex Enclosure
- Perimeter Fencing
- Piling
- Smith Street Turning Lane
- Temporary Electrical – HV Cable Supply
- Temporary Electrical – HV Transformer & Ring Main Units
- Trunk Services
- Watchman & Security Patrol (Early Works)

## Project Description

Lend Lease is working in partnership with Queensland Health as the Stage One Managing Contractor on the new A\$1.76 billion Gold Coast University Hospital in Australia.

The 750 overnight-bed tertiary level hospital will provide new and expanded health services and will be part of the new, integrated Hospital and Knowledge Precinct planned for Southport.

On target for completion at the end of 2012, the hospital will create an innovative environment for health care provision, medical research and the teaching of future doctors, nurses and allied health professionals.

Located adjacent to the Griffith University Gold Coast Campus, the development is one of the largest health infrastructure projects currently underway in Australia.

The new hospital will provide a greater range of specialised health care to patients, including new and expanded services such as cancer radiotherapy services, neurosciences, neonatal intensive care, trauma response services and cardiac surgery.
