

Same Sex Marriage

Lendlease has long supported equality in the many countries in which we operate. In March 2016, Lendlease reinforced our company position by supporting Australian Marriage Equality and their campaign around marriage equality.

We are proud to have an industry leading global diversity and inclusion policy which promotes an inclusive and respectful environment for all our employees and stakeholders. We respect the rights of all individuals to form their own views on matters such as marriage equality.

For the sixth year running Lendlease has been recognised as a top employer in the Australian Workplace Equality Index for Lesbian, Gay, Bi-sexual, Transgender and Intersex (LGBTI) inclusion.

Lendlease is a founding member of 'Pride In Diversity' in Australia, and in the United States our business has received a citation for the last two years on LGBTI inclusion.
