

Safety

We are committed to the health and safety of our people. This means we focus on maintaining the health and wellbeing of our people and those who engage with our assets.

At Lendlease, first and foremost we want to send people home in the same condition in which they came to work or visited one of our locations because it is simply the right thing to do. This is what our safety focus is all about, and safety will always be our number one priority.

Through Lendlease's Global Minimum Requirements (GMRs) we operate to a consistent standard across all of our operations. GMRs apply to the entire lifecycle of a project, including before we even decide to bid for a project. Our GMRs remain the foundation to our overall approach to health and safety.

In this day and age, everyone has the right to go home safely to their families, friends and love ones, every day.

At a glance:

- 90 per cent of our operations were without a critical incident in FY 17.
- Between 2000 and 2010 Lendlease reported 69 fatalities.
- Between 2011 and 2015 we reported three fatalities.
- Lendlease reported no fatalities during 2016.
- Between March and August 2017 Lendlease reported three fatalities.
