

Lendlease Celebrates Topping Out at Duke University's Science Drive / Cameron Parking Deck (PG8)

Durham, North Carolina, USA, 31 March 2016: Lendlease, one of the world's largest property, infrastructure and construction management firms, has topped out the Duke University's Science Drive / Cameron Parking Deck bringing the project one step closer to completion. The cast-in-place parking garage will house 2,342 spaces and is 800,000 sf.

"We're very excited to celebrate the topping out of this highly anticipated project," said Seth London, Operations Director. "I want to acknowledge the combined efforts of Duke University and our Lendlease project team for reaching this important project milestone. I would also like to thank our design and construction partners, as well as the tradespeople who are working tirelessly to complete the largest structure on Duke's campus."

As the Construction Manager, Lendlease provided early modeling and constructability cost prior to Walker Parking Consulting, the Designer, commencing drawing to ensure programming and budget aligned. Throughout drawing development, Lendlease provided constructability and cost alignment reviews. The same Lendlease team is being utilized from preconstruction throughout construction.
