STAFF from construction group Lendlease will get their hands dirty to help beautify Liverpool Girls High School.

Employees will take part in a working bee on October 11, gardening, weeding, painting and tidying the school grounds.

In a show of community spirit, the 35 volunteers from Lendlease will be joined by the school's P & C, staff and students.

The partnership was forged as part of

Lendlease Foundation's Community Day initiative, which sees employees dedicate their skills and time to community projects.

Lendlease Group head of sustainability and Lendlease Foundation Cate Harris said activities included upgrading school facilities and landscaping public spaces.

"Community Day offers our people the chance to choose where they want to have a meaningful and positive impact, volunteering their time and skills to make a difference," she said.
