

Clean sweep for Lendlease malls at inaugural NEA 3R Awards

Singapore, 13 October 2017: All three malls managed by Lendlease in Singapore—313@somerset, Jem and Parkway Parade—received the inaugural National Environment Agency (NEA) 3R Award for Shopping Malls 2017, in recognition of notable contributions to waste minimisation through the implementation of 3R (Reduce, Reuse, Recycle) practices. With a total of six winners awarded the 3R Award across three categories (Standalone Shopping Malls, Mixed Developments and Mall Retail Tenants), this makes Lendlease the biggest winner at the awards and the first mall operator to win this award for all of its managed malls.

Lendlease's Managing Director, Singapore, Ms Ng Hsueh Ling, said: "Sustainability is a key guiding principle here at Lendlease, so each mall's business plan has to include environmental targets and an action plan with key sustainability initiatives to undertake. I am proud of what the teams have achieved thus far and we will continue to engage our tenants, shoppers and staff to raise awareness and shape behaviour on environmental sustainability."

Participating malls were assessed based on their waste management policies, 3R practices, waste disposal and recycling tonnage reports, and 3R engagement with shoppers, tenants and staff.

Mr Ong Soo San, Director of the Waste and Resource Management Department at the NEA, said: "With waste disposal quantities in Singapore steadily increasing over the years, it's heartening to see mall operators like Lendlease prioritising sustainability and doing their part to engage and influence their network of shoppers, tenants and staff in the greater adoption of 3R practices."

With an ambitious global target to achieve 20% reduction against financial year 2014 baseline of waste, water and energy across all operations by 2020, Lendlease has made great progress, achieving 15% waste reduction to date. Examples of initiatives implemented by the malls include:

Reduce

- Eco-digester system at Jem and Parkway Parade breaks down up to 2.0 tonnes and 1.4 tonnes of organic waste respectively into water each day
- Roving waste collection at all three malls for tenants to dispose carton boxes and other packaging materials directly into 660-litre bins, thus minimising the use of individual plastic bags for waste clearance

Reuse

- Festive decorations at all three malls are innovatively transformed for reuse on other occasions

Recycle

- Roving cooking oil collection from F&B tenants at Jem and 313@somerset to accumulate and convert used cooking oil into biofuel
- Exhibitions and roadshows to engage shoppers on 3R practices, e.g. Parkway Parade's *Dump It Right, Recycle It Right* roadshow for shoppers to learn how to segregate recyclable waste into the right bins through fun and play
- Annual campaigns to incentivise and encourage shoppers to recycle—in 2017, over 7.2 tonnes of recyclables were collected at Jem and Parkway Parade's donation drives and more than 1,180 clothing items were swapped or donated at 313@somerset's *Green & Gorgeous Fashion Swap*, which allowed shoppers to exchange their pre-loved clothes with items dropped off by other shoppers
