Lend Lease's Woodlands release last stage at Willow Rise

Queensland, 16 October 2014: Lend Lease's Woodlands has released its last stage at Willow Rise, offering a rare opportunity to secure flat ready-to-build-on land, with views ranging from the Willow Rise Park and environmental corridor to the western ranges.

According to the Charter Keck Cramer June 2014 National Land Survey Program, Logan land sales have increased 231 per cent compared to June 2013.

Buyers are encouraged to act quickly to secure one of the remaining few blocks with sizes ranging from 320 square metres to 1514 square metres and priced from just \$169,000.

Woodlands Regional Development Manager, Gary Searle said release of the last stage was a great opportunity to buy in a well-established community, where park-side living and a range of community facilities are all within walking distance.

"People who buy here say they love the views, the beautiful sunsets, the Willow Rise park – which is only minutes walk from any home in the neighbourhood – the opportunity for breezes and of course the chance to have a home they can call their own.

"Home buyers are looking for choice and we have a range of properties on offer from more affordable housing options to homes for large families on larger blocks.

"It's all here for buyers to enjoy a lifestyle and a neighborhood that is caring and connected with a high level of modern facilities as well as Holmview Shopping centre and Canterbury College right on your doorstep," said Mr Searle.

Woodlands which is spread over 137 hectares, has been carefully planned to maintain and enhance its natural surroundings. Each home is within walking distance of a park which features numerous community facilities including BBQs, shelters, picnic areas, a kick-about area, children's" play area with swing and climbing peak, the iconic Woodlands coloured poles and large timber arbours framing the pathways.
