# Yarrabilba splashes out with SEQ's newest water playground

**Queensland, 16 January 2014:** Friends and families are invited to splash-out on Saturday 25 January to celebrate the official opening of Darlington Parklands, Yarrabilba's \$5 million, six hectare super-park, featuring SEQ's newest water playground.

Splash, Sounds and Surrounds will be a full-day community event, starting with a 7am fun run, healthy breakfasts and personal training and stretching sessions on the park's new fitness equipment. Opportunities will follow to meet sports stars, be entertained by shows by Captain Jack Sparrow and Ariel the Little Mermaid. The afternoon is set for relaxation to live music on the lawn, enjoying delicious treats purchased from the Market Square and finishing with fireworks at 7pm.

Central to the celebration will be Darlington Parklands' water playground, a summer-time oasis created by the themed water playground with water jets, streams and splash-about facilities.

Regional Development Manager, Rob Moore said Darlington Parklands' water playground was SEQ's newest and a great recreation centre for the area.

"Our new water playground is just magic – this event is a great chance for families to ease the summer heat in style and experience the water wonderland at it's very best!" said Mr Moore.

In addition to the water playground, Darlington Parklands includes an outdoor gym complete with basketball half court and exercise equipment, 30 metre twin flying fox, climbing dome, multi swing and other park equipment, barbeque areas, wetlands and walking paths through the environmental corridor.

"We know Darlington Parklands will become the centre of our new community here at Yarrabilba, but we want everyone from the local area to be able to enjoy its many state-of-the-art facilities too."

Yarrabilba will become home to more than 45,000 people over the next 30 years, covering 2,012 hectares of land between Brisbane and the Gold Coast. Eventually more than 17,000 new homes will be constructed at Yarrabilba along with shopping centres, schools, employment generating businesses, extensive parks and recreational facilities.
