

Lendlease announces Daniel Goldberg as interior designer for One Circular Quay

Sydney, 19 June 2023: Lendlease has announced internationally acclaimed interior designer Daniel Goldberg of State of Craft has been appointed to curate the interiors for its 58-level luxury residential tower One Circular Quay, working alongside the award-winning Kerry Hill Architects.

For over a decade, Goldberg and his design studio State of Craft have collaborated with world-famous architects including Renzo Piano on iconic residential projects such as The Shard Residences in London, as well as Lendlease's prestigious One Sydney Harbour residential towers in Barangaroo South.

The appointment extends Lendlease's partnership with Goldberg, who has curated three sophisticated schemes for the One Circular Quay residences that are designed to be timeless and respond to the building's architecture and prominent harbourfront location.

Each interior palette draws on a unique element of the surrounding harbour landscape, taking inspiration from either the sky, the ocean, or the terrain and represented through a suite of high-quality finishes, colours and textures. Goldberg's vision for the interiors is to compliment the backdrop of iconic views that will be seen from every residence within the landmark building.

Buyers can choose from Aero, the lightest of the palettes, inspired by the morning sky and Sydney Opera House roof, the contrasting Aqua palette with dark stained oak walls and grey limestone flooring reflecting the night shades and reflections of the harbour basin or the Terra palette which draws inspiration from the earthy tones and the lush vegetation around the Quay and the Botanical Garden.

Designed by the late Australian architect Kerry Hill, the luxury residential tower will include 158 residences, with all two, three and four-bedroom residences offering an enclosed winter garden and dual icon views of the Sydney Harbour Bridge and Opera House.

Levels 50-55 will be home to six full-floor sub-penthouses, while levels 56-58 will be reserved for a three-level penthouse boasting five bedrooms, a private lift, floor-to-ceiling windows with panoramic views of Sydney's world-famous harbour, and a north-facing swimming pool and terrace.

One Circular Quay residents will have exclusive access to premium facilities, including a private indoor pool, gym, steam room and dedicated concierge services.

Since its exclusive off-market launch in late-2022, residential sales have surpassed \$1 billion with more than 50 per cent of residences now pre-sold.

The One Circular Quay residences are targeting completion in late 2026.

Quotes attributable to Daniel Dugina, Head of Apartments, Lendlease

“Building on the success of nearby luxury residences One Sydney Harbour, One Circular Quay will boast smart floorplans that maximise light and space, offer versatility, and highlight natural elements including the iconic views that are unique to this prestigious waterfront site.”

“We are pleased to be once again working with the world-renowned talent of Daniel Goldberg and his design studio. Their design excellence, attention to detail and superior quality finishes are set to bring the world-class vision for these landmark residences to life.”

Quotes attributable to Daniel Goldberg, Director, State of Craft

“What is common across all our projects is the search for what is special about the site because our interiors are always a response to the site, to the climate, the culture and the context,”

“For One Circular Quay, we wanted the interiors to capture some of the spirit and magic of Circular Quay as one of the world’s great inner city harbours. We envisioned the homes to offer a refuge, a sanctuary from this hectic city life with serene interiors that would be calming to the senses from the moment you step in and offer a sense of connection to the outside.”

“Our interiors are a response to the setting of Circular Quay, Kerry Hill’s architecture, the light and iconic views to the north. We wanted to give the interiors a distinct sense of place, and make the spaces feel rooted in the local context.”
