

## Social Value Creation in Lendlease Europe

Our European Shared Value Partnerships have been forged to connect our workforce and projects with our local communities.

Whether it is offering a safe place for young adults coming from deprived areas in Manchester or proactively supporting employment opportunities for non-violent offenders in Milan, the Lendlease Foundation in Europe supports organisations and charities that help improve the quality of life and open opportunities for people across the region.

Together, our commitment is to invest in larger, long-term social value partnerships that provide greater social impact, reach a greater number of priority groups, and offer numerous volunteering opportunities throughout the year.

### Our Shared Value Partnerships

#### [The Lighthouse Club](#)

In the UK and Ireland, two Construction Workers take their own life every working day. The Lighthouse Club is the Construction Industry Charity and only charity that provides financial, physical and mental wellbeing support to the construction workforce and their families. They achieve this by providing a 24/7 Construction Industry Helpline which is the gateway to access a portfolio of free and confidential support services.

Their mission is that no construction worker or their family should be alone in a crisis.

BY 2025**

Assessing shared value  
partnerships beyond project  
and asset obligations

#### [Hideout Youth Zone](#)

Lendlease Foundation is working with Onside Youth Zone East (HideOut) to support two more Youth Zones in Manchester. Youth Zones are incredible facilities offering young adults a place that has: a warm welcome, a bright lively environment and somewhere they can take part in positive activities, make new friends, learn new skills and have new experiences.

By making this long-term commitment, Lendlease will help ensure a sustainable foundation for the new Youth Zones as they embed themselves within the community and provide a safe place for the children and young people in need.

#### **Programma 2121**

Programma 2121 is a strategic partnership between Lendlease Italy and the Italian Department of Justice, designed to help prisoners reintegrate into society as citizens who can actively contribute through their work. Through vocational training, the partnership offers internships and work opportunities that will provide a sustainable and positive career path and re-integration within the local community.

#### [The Regent's Place Community Fund](#)

The Regent's Place Community Fund is a collaboration of businesses based at Regent's Place (London) working together to support local grassroots community organisations by sharing resources, bringing together skills & expertise, and creating opportunities for local people.

The fund aims to make a real difference to the local area and focuses on causes that support social cohesion in the community, skills and access to employment, and health and wellbeing.

Lendlease is one of the first patrons and founders of The Regent's Place Community Fund since 2017.

# Our Community Engagement

## COMMUNITY GRANTS

Lendlease Foundation Community Grants programme is an initiative to aid not-for-profit community organisations and charities that deliver impact across the following areas:

**Economic prosperity**

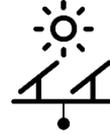

**Community inclusion**

**Wellbeing**

**Resources and materials**

**Climate action**

**Nature and pollution**

In Europe, Lendlease Foundation Community Grants are launched once a year and are led by employee-nominations. This way, we can all actively contribute and feel connected to the community groups that we want to support, making the world we live in a better and safer place to live, work and play.

This programme is also fully managed by our regional Lendlease Foundation team. For more information contact [laura.caporossi@lendlease.com](mailto:laura.caporossi@lendlease.com)
